

Pre-equipped bar for metal sheet signs with bi-flash Ø 200 with 80 LEDs • Battery
REF : 23659

Made in France

« The K8 bar allows you to warn of the arrival of a deviation or temporary narrowing of the roadway. Lighting equipment composed of 2 LED optics and a management box. Each Ø 200 optic has 80 high light intensity yellow LEDs, protected by a translucent polycarbonate lens. Activated by a 3-position waterproof switch (24 hours a day, off, night). »

- The lifespan of an LED is more than 100,000 hours.
- A 3-position switch, located on the box, associated with a day/night cell allows you to select the system shutdown.

TECHNICAL INFORMATIONS

Operating mode	3 modes: OFF / H24 / Night trigger Double flash
Power supply	12 V Rechargeable battery (not supplied)
Autonomy	1 279 hours with a 12 V 75 Ah rechargeable battery
Protection	Optics : IP 67. Housing : IP 53.
Size (L x l x h)	1500 x 300 x 430 mm
Weight	2,7 Kg
