Made in France

« The Tempo box protection cage meets the essential needs to combat vandalism, battery theft or simply to protect your traffic light, optimally on your construction sites. »

The locking device is itself protected by 3 mm steel plate returns adding a second level of security. »

- The structure is made of steel and covers the entire box.
- Welded lifting point, for hoist or forklift.
- Frame welded to a 6mm bottom plate.
- Reinforced security around the padlock.
- Company logo location on the front.
- Stackable cages.
- RAL 1023.

ROADWORKS SIGNALING

Range: Temporary Roadworks Traffic Light

Protection cage for Tempo roadworks traffic light box

REF : 41186

Protects the battery box:

The structure of the cage is made of steel and covers the entire housing of your fire, thus preventing forced opening, battery theft and protecting against external shocks.

The cage frame is welded to a 6 mm base plate, pre-drilled for anchoring to the ground preventing movement, vandalism and theft of your light.

Simplified transport:

Transporting the fire with its cage is made easier thanks to the lifting rings welded to the upper bar. Lifting by hoist or forklift.

Cadenas protégé :

The padlock is protected by a 3 mm steel "U" reducing its exposure to vandalism.

Stockage réduit :

Nos cages ont été développées pour pouvoir être superposées, optimisant ainsi le stockage en limitant l'emprise au sol.
